CMSC 5718

Introduction to Computational Finance

NOTICE ABOUT THE FINAL EXAMINATION

Final examination information

Date:	April 13, 2026 (Monday)
Venue:	LSK LT1
Time:	7:00-9:30pm

Please bring a calculator

No other electronic device will be allowed

This is a semi-open book exam, and each student is allowed to bring two A4 sheets into the examination venue

Please sit according to the seating plan (to be released before the date of the examination)

Examination format

Students are required to answer all the questions

For Section A, *write the answers in the spaces provided in the question paper*

For Section B and Section C, *write the answers in the answer book*

Submit the question paper together with the answer book

Section A consists of 10 multiple choice questions (2 marks each, 20 marks total)

- In each question, 4 possible answers are given; students should choose the best answer
- 0 mark if more than one answer is provided

Section B consists of 4 short questions (5 marks each, 20 marks total)

Section C consists of 5 problem sets (60 marks total)

Comments

There would not be any question requiring mathematical proofs of results of the models covered in the class

- Some simple mathematical formulas may still appear

The multiple choice questions (section A) would mostly be conceptual questions

- Topics can come from all materials in the lecture powerpoint files unless otherwise stated

Most questions in sections B and C will require numeric answers; there may be some questions that involve the design and analysis of simple trading strategies as covered in the lectures

- The practice questions are similar to the examination questions that require numerical calculations, but there may be additional parts on the interpretation and further discussion of calculated results

Format of the “cheat sheet”

Students can bring a hand-held calculator and 2 A4 sheets into the examination venue, and no other electronic device (such as phone or tablet computer) is allowed

The format of the A4 sheet is as follows:

- Can be written on both sides
- Can be printed or handwritten
- Can contain information taken from the course materials or from any outside source

Topics to be excluded

As of February 9, 2026 – the list would be updated after the final class on March 30, 2026

Topic 1-2, slides 46-57

Topic 1-3, slides 45-54

These topics will NOT appear in the final examination
